

SCHOOL BASED MENTAL HEALTH: PATHWAYS TO SUCCESS IN NEVADA SCHOOLS

This 6-week educational series is aimed at improving the understanding of and enthusiasm for providing, communicating, and delivering school based mental health. Through this collaborative exchange of knowledge and experiences, participants will gain valuable insights, broaden their expertise, and contribute to the collective advancement of school based mental health in Nevada.

This program is approved for a total of 1.0 hour per session of CME/CEU for Educator, Physical Therapy, Speech Pathology, Audiologist and Hearing Aid Tech, and Occupational Therapy credits.
